

InovaAKAER - Technological Development & Qualification for Manufacturing

Motivation

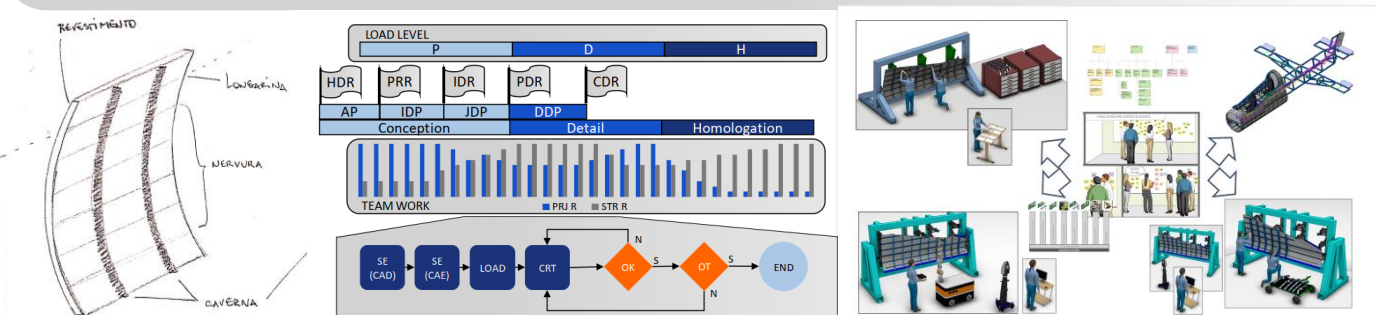

Akaer has set a Strategic aim that involves increasing its current action domain - fundamentally based on services of specialized engineering (detailed design and structural analysis) to a much broader Market positioning, including the early stages of Concept Development, Requirements elaboration based on OEM demands up to the Manufacturing Process Design and Industrialization, i.e. the production of aeronautical structures, adding up the capabilities of Certification support.

Objective

Support AKAER in the path to acquire the necessary capabilities to be successful in the Planned Domain of action.

Approach

Work in close collaboration with Akaer collaborators in the development of a Demonstrator, exercising the state-of-the-art tools for Integrated Product Development, considering the whole-life-cycle of the product. Help Akaer teams in the design of the new internal processes that are necessary for the new Planned Domain of the enterprise activities.
