

E-WORKS – Alternative and Innovative Environment

Motivation

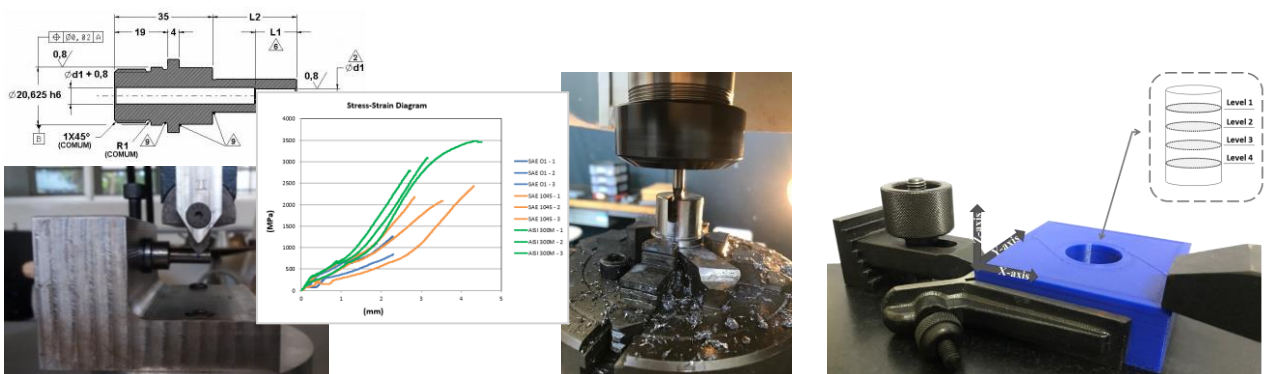

The industry daily routine and its work environment usually present lots of pressure and charging, those facts could direct interfere on the worker activities mainly on developing projects. Working in an alternative and innovative environment may help to improve creativity and outside the box ideas.

Objective

To provide an alternative and innovative environment where professionals and the research center can work collaboratively on new developing and planning of processes, products and business.

Approach

Perform an innovation and knowledge management through training courses to make the research and development of new engineering concepts on the industry fast and viable, by means of prototype manufacture and field tests.
